PROFESSIONAL SUMMARY

A seasoned Front-End Engineer with about 6 years of experience crafting visually appealing and user-friendly interfaces. I excel in creating visually appealing and user-friendly interfaces. I am proficient in collaborating with globally , widely distributed , cross functional teams and adept at driving projects from concept to launch. My expertise lies in utilizing React and its associated technologies to develop high-quality, responsive, and performed web applications. I demonstrates strong collaboration skills, able to work effectively with cross-functional teams. I continually adapt to emerging frontend technologies and trends ensuring the delivery of cutting-edge web solutions.

SKILLS

• Web Application and Development :-
ReactJS, Redux, SASS, Javascript, Typescript, Next JS, Responsive Design, C#, Node JS, GraphQl.
• Testing, Performance and Deployment :-
Appium, Cypress, Postman, React Testing Library, Selenium, Jest, Playwright, Continuous Integration(CI), Continuous Deployment(CD) , Cross- Browser Compatibility , Web Accessibility Standards.
• Collaboration tools:- Git, GitHub, GitLab, Bitbucket, JIRA, Slack, Microsoft Teams, Zoom, Discord, Notion.

WORK EXPERIENCE

SEPTEMBER 2022 - OCTOBER 2023
SENIOR FRONTEND ENGINEER | QA ENGINEER, THEOREMONE, LOS ANGELES, CA

- Played a pivotal role in the architectural design, development, and deployment of advanced frontend functionalities for a variety of web applications, with a strong focus on achieving peak performance and adhering to user-centric design principles.
- Worked cohesively with UX/UI designers, backend engineers, and product managers to implement innovative and comprehensive applications, ensuring harmonious interactions between frontend and backend functionalities.
- Participated in rigorous code reviews and adhered to best practices to safeguard code quality and maintainability, ensuring compliance with coding standards and enhancing application performance.

JULY 2021 - JUNE 2023 (Freelance)
SENIOR FRONTEND ENGINEER | QA AUTOMATION ENGINEER, EDUSKO, REMOTE

- Applied advanced optimization techniques to enhance web application performance, resulting in reduced load times and improved user engagement and satisfaction.
- Expertly identified, documented, and monitored software defects, ensuring swift resolution. Played a crucial role in maintaining application reliability and performance through comprehensive automated testing processes.

DECEMBER 2021 - APRIL 2022
SENIOR FRONTEND ENGINEER, APPSMITH, REMOTE

- Worked predominantly as a frontend Engineer, Leveraging React and Javascript within a scrum team to develop several features that serve their respective users
- Utilized best practices and performance optimization techniques to ensure fast load times and smooth user interactions.

- Identifying, documenting, and tracking software defects, as well as verifying bug fixes. Ensuring the reliability and performance of Appsmith's applications through rigorous automated testing.
- Lead the frontend team to build the solution that manages entrepreneurs' banking and business operations
- Collaborated effectively with cross-functional teams to drive projects from conception to successful launch

JUNE 2021 - NOVEMBER 2021
SENIOR FRONTEND ENGINEER, PROSPA, LAGOS, NIGERIA

- Lead the frontend team to build the solution that manages entrepreneurs' banking and business operations
- Collaborated effectively with cross-functional teams to drive projects from conception to successful launch

AUGUST 2020 - JULY 2021
FRONTEND ENGINEER, AUTOCHEK, LAGOS, NIGERIA

- I specialized in using React (NextJS) and JavaScript within a scrum team to develop a range of web solutions. My contributions were pivotal in creating the marketplace, a web console admin, and a logistics portal, each tailored to meet the specific needs of their respective user bases.
- Led extensive training sessions for staff on utilizing internal tools developed by the engineering

OCTOBER 2019 - SEPTEMBER 2020
FRONTEND ENGINEER, ENYATA SOFTWARE ENGINEERING, TORONTO CANADA.

- Worked in the capacity of a Team Lead, with the responsibility of co-ordinating the team and moderating some scrum ceremonies
- Co-ordinated code review sessions within the team, as well as paired programming and mentorship of interns and Junior Engineers.

FEBRUARY 2019 - SEPTEMBER 2019
FRONTEND ENGINEER, ANDELA, NEW YORK, NY, US,

- Collaborated with an in-house agile development team to build Authors Haven, a platform for writers and authors.
- Effectively translated partner requirements into application designs and systems requirements.
- Built reusable front end components currently used across in-house projects
- Collaborated with an in-house team to build "Tembea", a platform that is used to ease the process of requesting a trip

JANUARY 2018 - OCTOBER 2018
FRONTEND ENGINEER, ECSCORP RESOURCES, LAGOS, NIGERIA..

- Collated and refined project specifications and requirements to align with technical needs, enhancing project efficiency and streamlining development processes.
- Developed and maintained comprehensive software documentation, improving team understanding and reducing the frequency of software errors and user inquiries.
- Assist senior developers in collating and refining project specifications and requirements based on technical needs to ensure that the project aligns with the client's goals and objectives.
